

APM Practitioner Qualification

This assessment centre event is designed to provide the individual with an international qualification that recognises their capability in project management. The APM Practitioner Qualification (PQ) is an International Project Management Association (IPMA) Level C qualification and assesses capability, i.e. the appropriate application of those knowledge areas as defined by the APM Body of Knowledge. It is the only project management qualification in the UK that assesses the capability of a project manager.

Event duration

2 days of continuous assessment commences typically at lunchtime on day 1 and finishes at lunchtime on day 3. Due to the intensity of the assessment it is strongly recommended for candidates to be residential as there will be evening work required.

Who should attend?

Project managers interested in gaining an internationally recognised qualification of their project management capability. Also managers who have had experience in responsible leadership functions on projects, or perhaps as a team leader of a significant part of a larger project.

Benefits

Recognition - by APM, an internationally accredited professional body, of an individual's ability to manage a non-complex project.

Development - 6 page written feedback of capability across 30 assessment criteria.

Professional - APM Practitioner Qualification provides employers with tangible career development evidence.

Features of a Provek PQ

- Accredited Provider of more than 30 PQ events
- Three highly experienced approved PQ Assessors employed by Provek
- Unique online PMA5 assessment to indicate PQ readiness and suitability, as well as highlighting developmental areas
- Dependable and novel approach to capturing evidence during PQ sessions in a comprehensive and structured manner
- Well proven range of preparation services to ensure candidates demonstrate their true capability during the event
- Self-study development pack, one to one coaching and preparation workshops available

Event content

Candidates will be assessed against 30 pre-declared assessment criteria through a combination of:

- Individual work – candidates will provide written answers in examination conditions to questions based upon the given case study
- Group work (observed) – candidates will carry out group exercises in order to discuss and solve problems relating to the case study
- Interviews – all candidates will be interviewed on an individual basis

Pre-requisites

Candidates must have passed the APMP or equivalent qualification or can demonstrate sufficient project management knowledge. It is likely, but not essential, that suitable candidates will have 3 to 5 years experience in responsible leadership functions of non-complex projects. Candidates will be required to complete Provek's PMA5 online assessment.

Event venues

This assessment centre is available as an open public event and also as an in-house event. To discuss prices, dates and venues please contact Provek.
