

PRINCE2® Blended e-Learning and Classroom

This programme is designed to provide delegates with an in-depth understanding of the principles and terminology of PRINCE2 to act as an informed member of a project management team on a project using the PRINCE2 method. It is also designed to enable delegates attain the level of competence required to pass the PRINCE2 Foundation and Practitioner exams with a minimum of classroom contact time. This is achieved using a combination of self study via e-learning, remote tutor support and a 2 day workshop which incorporates both exams. This approach provides delegates with a greater degree of flexibility in the way they study than that of a standard 5 day classroom based event.

Following completion of the e-learning delegates will attend a 2 day workshop which commences with the Foundation exam which will be marked. Delegates will then complete the interactive workshop designed to prepare them for the Practitioner exam held at the end of the second day. Note that a pass in the Foundation is a pre-requisite to sitting the Practitioner exam. A free re-sit of the Foundation exam will be available in the unlikely event of a failure.

All delegates are issued with a PRINCE2 manual, e-learning package which includes sample questions and PRINCE2 manual references and access to our remote tutor support.

Course duration

Self-Study plus 2 day workshop
 Recommended minimum of 60 hours self-study time required

Pre-requisites

Some experience in a project environment is recommended

Course style

e-Learning and interactive workshop

Exam venues

The Foundation examination is held at the commencement of the workshop and the Practitioner at the end of the second day.

Pre-course study materials issued by Provek

All delegates are provided with a copy of OGC's Managing Successful Projects with PRINCE2 manual and Provek's PRINCE2 e-Learning package.

Course price

£985 + VAT per delegate inclusive of self-study material and both Foundation and Practitioner examination fees.

Course objectives

Delegates will be able to:

- State which management products are input to, output from, and updated in the processes.
- State the main purpose, and key contents, of the major management products as identified in the detailed syllabus.
- State the relationships between processes, products, themes, roles and the management dimensions of a project.
- Produce detailed explanations of all principles, processes and themes and apply the method to a range of project situations.
- Demonstrate that they understand the relationships between processes, products, themes, and PRINCE2 products and can apply this understanding.
- Demonstrate that they understand the reasons behind the processes, products, themes, roles of PRINCE2, and that they understand the principles underpinning these elements.
- Demonstrate their ability to tune PRINCE2 to different project circumstances.
- Take both the Foundation and Practitioner exams following comprehensive preparation.
