

ECITB APMP Certificate Exam preparation + Exam (2-day)

This course focuses totally on preparing delegates for the APMP 3 hour examination. This intensive APMP examination revision and preparation course includes examination tips, guidance, practise and expert tutor feedback. The 3 hour APMP examination itself is scheduled on the morning of day 2.

APMP is aimed at project managers and aspiring project managers who wish to demonstrate their knowledge of project management. APMP is a qualification recognised both nationally and internationally and also across all sectors and industries.

This course relies on candidates having already studied the syllabus for the examination including the Association for Project Management's (APM) Body of Knowledge often through Provek's ECITB APMP Certificate course (4-day) or similar.

This course also includes access to the Provek Remote Expert Support service and Provek's market-leading PMA5 online assessment tool as an invaluable aid to delegate preparation and providing an objective assessment of their APM knowledge and readiness for the exam.

Course duration

1 day APMP revision and exam preparation course + 3 hour APMP examination. 10 to 20 hours of self-study and revision in delegate's own time will also be expected.

Who should attend?

Typical delegates will be Work-package lead / managers, Project Office / Coordinators, Project or Programme Office Managers, Project Managers and Senior Project Managers.

Course content

- Review of APM Syllabus topics.
- Revision questions (in exam style) and advice and tips for taking the APMP exam.
- 3 hour APMP exam (morning of day 2)

Pre-requisites

Delegates must have already studied the syllabus for the examination including the APM's Body of Knowledge 5th Edition e.g. delegates should have attended one of Provek's ECITB APMP courses previously. This course is not a substitute for training in the topics covered by the APMP syllabus.

Pre-course study materials issued by Provek

Prior to attending this course delegates should review their APMP Certificate training materials and / or APM Body of Knowledge 5th Edition book for those topics within the APMP syllabus. Also delegates need to bring their previous APMP training materials with them to this course for essential reference during the day.

Course objectives

Delegates will be able to:

- Prepare for the APMP Certificate examination
- Understand the range, style and format of the APMP examination questions and how to structure an appropriate answer
- Form a plan for the examination
- Gain tips and hints from a highly experienced APMP training consultant

Engineering Construction Industry Training Board
